Office Action Summary

Application No.

10/694,371

Applicant(s)

MEYER, MARTIN WOLFGANG

Examiner

Hae M Hyeon

Art Unit

2839

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 2 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 27 October 2003.
- 2a) ☐ This action is FINAL. 2b) ☐ This action is non-final.
- 3) ☒ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

- 4) ☒ Claim(s) 1-12 is/are pending in the application.
- 4a) Of the above claim(s) _____ is/are withdrawn from consideration.
- 5) ☐ Claim(s) _____ is/are allowed.
- 6) ☐ Claim(s) _____ is/are rejected.
- 7) ☒ Claim(s) 1-12 is/are objected to.
- 8) ☐ Claim(s) _____ are subject to restriction and/or election requirement.

Application Papers

- 9) ☒ The specification is objected to by the Examiner.
- 10) ☒ The drawing(s) filed on 27 October 2003 is/are: a) ☐ accepted or b) ☒ objected to by the Examiner.
Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).
Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d).
- 11) ☐ The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152.

Priority under 35 U.S.C. § 119

- 12) ☒ Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).
- a) ☒ All b) ☐ Some * c) ☐ None of:
1. ☒ Certified copies of the priority documents have been received.
 2. ☐ Certified copies of the priority documents have been received in Application No. _____.
 3. ☐ Copies of the certified copies of the priority documents have been received in this National Stage application from the International Bureau (PCT Rule 17.2(a)).

* See the attached detailed Office action for a list of the certified copies not received.

DETAILED ACTION***Drawings***

1. The drawings are objected to because the reference number 36 in the assembled coupling part 10 of Figure 1 is pointing at the spring 20 instead of the metal ring. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as “amended.” If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. The replacement sheet(s) should be labeled “Replacement Sheet” in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Specification

2. The disclosure is objected to because of the following informalities:
- In the paragraph [0038], line 1, “housing section 18” should be -- housing section 16 --.
 - In the paragraph [0039], line 1, the examiner suggests the applicant to change “the inner inner space section 30” to -- the inwardly lying section 30 -- because the paragraph

Art Unit: 2839

[0038], line 2 recites, "inwardly lying section 30." The same element should have the same terminology consistently through out the specification to avoid confusion.

- In the paragraph [0040], line 4, change "signal connector" to -- signal terminal -- because the paragraph [0039], line 5 recites, "signal terminal."
- In the paragraph [0040], line 6, change "the signal connector piece 50" to -- the signal connector section 50 --.
- In the paragraph [0041], lines 7-8, "the ground connector 40" should be -- the ground connector section 48 --.

The specification has not been checked to the extent necessary to determine the presence of all possible minor errors. Applicant's cooperation is requested in correcting any errors of which applicant may become aware in the specification.

Appropriate correction is required.

3. The title of the invention is not descriptive. A new title is required that is clearly indicative of the invention to which the claims are directed.

Claim Objections

4. Claims 1, 3, 9 and 10 are objected to because of the following informalities:
- It is not clear what a preamble and a body in Claim 1. Thus, it is not clear what is the claimed invention. The examiner suggests the applicant to change "with" in claim 1, line 2 to -- comprising --.
 - Claim 3 recites the limitation "the end of surfaces" in line 2. There is insufficient antecedent basis for this limitation in the claim.

Art Unit: 2839

- The examiner suggests the applicant to change the dependency of claim 10 from claim 6 to claim 9 because claim 10 creates an antecedent basis for the limitation “the microprocessor of the second coupling part” if claim 10 depends on claim 6 since the microprocessor of the second coupling part was introduced in claim 9.
- Also, the examiner suggests the applicant to change the dependency of claim 9 from claim 7 to claim 6 because claim 10 recites both “the microprocessor of the first coupling part” and “the microprocessor of the second coupling part.”

Appropriate correction is required.

Allowable Subject Matter

5. Claims 1-12 are objected.

6. The following is a statement of reasons for the indication of allowable subject matter: In combination with all the limitations recited in the independent claim, all the prior arts do not show a light conductor coupling comprising first and second coupling parts, each having a light conducting element, of which at least one is elastically biased so that the light conducting elements are pressed against one another with their end surfaces. The end surface of one light conducting element is spherically concave and the end surface of the other light conducting element is formed spherically convex with the same radius of curvature.

Conclusion

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. US Patent No. 4,997,254 by Ganev, US Patent No. 5,095,517 by Monguzzi et al., and EP-0308592A2 by Brubaker.

Art Unit: 2839

8. This application is in condition for allowance except for the following formal matters:

Minor informalities in the drawing, the specification, and the claims.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Hae M Hyeon whose telephone number is 571-272-2093. The examiner can normally be reached on Mon.-Fri. (8:30-5:30).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Tulsidas C Patel can be reached on (571) 272-2098. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
